Applicant Information

Organization Name San Diego County Water Authority - *

Tax ID **95600276**

Proposal Name San Diego IRWM Planning Grant Proposal *

Proposal Objective The San Diego IRWM Region is committed to preparing a useful and effective update to our adopted 2007 IRWM Plan that will guide the region's stakeholders in managing water resources for the next 20 years. The IRWM Plan and program have become an essential component of water management in the San Diego Region, as it brings together water retailers, wastewater and recycled water managers, flood managers, land use planners, watershed activists, and other stakeholders to coordinate their activities in a way unprecedented before launch of the State's IRWM grant program. Objectives for the IRWM Plan Update include: • Develop and promote a unifying vision that reflects the water resources needs for urban and rural areas in San Diego • Engage and involve the Region's stakeholders in ongoing IRWM planning and project implementation • Collaborate with the Region's DACs to identify and address their water supply and water quality needs • Collaborate with the Region's tribes to understand their 'water stories' and water resources needs • Coordinate with neighboring regions through the Tri-County FACC to improve water resource management within the Funding Area • Establish a governance and financing structure to support the long-term sustainability of the IRWM program • Identify and implement opportunities to collaborate with the Regional Board to improve water quality • Develop and implement regional guidelines for salinity and nutrient management planning in compliance with the State Board's Recycled Water Policy • Assess the Region's water management plans and align policies with land use and flood control planning • Collaborate with the Region's flood managers to understand and implement integrated flood management • Complete a vulnerability analysis and assess greenhouse gas emissions to facilitate adaptation and mitigation actions • Meet and exceed DWR's Plan Standards for the IRWM Plan Update *

b) ☐ Interregional Planning Grant

Q1. PROPOSAL DESCRIPTION

Provide a brief abstract of the Proposal. Please note if the Proposal will facilitate or support the participation of DAC's in the IRWM planning effort.

The San Diego IRWM Region is committed to preparing a useful and effective update to our adopted 2007 IRWM Plan that will guide the region's stakeholders in managing water resources for the next 20 years. The San Diego IRWM Planning Grant Proposal contains an overview and understanding of the San Diego IRWM Region, our stakeholders, and our adopted IRWM Plan (Attachment 3, Background Setting). The proposal provides a detailed scope of work for the stakeholder outreach, planning studies, and IRWM Plan Update activities needed to bring the Region's IRWM Plan in line with the State's IRWM Plan Standards (Attachment 3, Work Plan). Outreach activities (Task 1 of Work Plan) will involve outreach, coordination, and collaboration with the Regional Water Management Group, Regional Advisory Committee, representatives from local DACs, representatives from the Region's 18 tribes, and other stakeholders and interested parties. This level of effort is necessary to fully engage all stakeholders in the planning process. Planning studies that are critical for improving the Region's water management capabilities address: collaboration with the Regional Water Quality Control Board to advance water quality (Task 2-1), development and implementation of Salinity and Nutrient Management Guidelines per the State Board's Recycled Water Policy (Task 2-2), improved connections between water management and land use planning (Task 2-3), and clarification

of integrated flood management for the arid San Diego Region (Task 2-4). Additionally, in order to comply with DWR's new IRWM Plan Standards, the Region's stakeholders will: define a long-term governance and financing structure (Task 3-2), compile a climate change analysis (Task 3-3), establish IRWM program priorities (Task 3-4), refine the IRWM Plan metrics (Task 3-5), and prepare draft and final IRWM Plan Updates (Tasks 3-6 and 3-7). Proposed budget (Attachment 4) and schedule (Attachment 5) files are also included to convey the Region's intent for our IRWM Plan Update.

Task 1-4 in the Work Plan specifically focuses on engaging and involving organizations representing the Region's DACs in the IRWM planning process. Meetings and public workshops (such as our August 2010 Project Integration Workshop) are held in different locations throughout the County and during off-business hours to accommodate DAC representatives. Going beyond the issue identification phase, this task also provides planning and engineering support for development of implementation projects that address identified water management needs in DAC areas. The IRWM Plan Update is exempt from the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines Section 15262 because the Plan Update is a planning study that identifies projects and programs for possible future actions, but does not have a legally binding effect of the participating agencies. Similarly, the IRWM Plan Update is categorically exempt from CEQA pursuant to Section 15306 (Class 6) because the Plan Update consists of basic data and information collection and evaluation of water management activities. As such, programmatic environmental analysis under CEQA is not required.

Q2. PROJECT DIRECTOR

Provide the name and details (including email) of the person responsible for executing the grant agreement for the applicant. Persons that are subcontractors to be paid by the grant cannot be listed as the Project Director.

Mark Stadler Principal Water Resources Specialist Water Resources Department San Diego County Water Authority 4677 Overland Avenue San Diego CA 92123 (858) 522-6735 MStadler@sdewa.org

Q3. PROJECT MANAGEMENT

Provide the name and contact information (including email) of the Project Manager from the applicant agency or organization that will be the day-to-day contact on this application.

Mark Stadler Principal Water Resources Specialist Water Resources Department San Diego County Water Authority 4677 Overland Avenue San Diego CA 92123 (858) 522-6735 MStadler@sdewa.org

Q4. APPLICANT INFORMATION

Provide the agency name, address, city, state, and zip code of the applicant submitting the application.

San Diego County Water Authority 4677 Overland Avenue San Diego CA 92123 (858) 522-6735

Q5. ADDITIONAL INFORMATION

Based on the region's location, what are the applicable DWR regions (Northern, North Central, South Central, and/or Southern)? The following link can be used to view each DWR region office boundaries:

http://www.water.ca.gov/groundwater/groundwater_basics/gw_contacts_info.cfm

- a) ☐ Northern Region
- b) ☐ North Central Region
- c) ☐ South Central Region
- d) ☒ Southern Region

Q6. ADDITIONAL INFORMATION

List the name of the Regional Water Quality Control Board (RWQCB) in which your project is located. For a region that extends beyond more than one RWQCB boundary, list the name of each Board.

http://www.waterboards.ca.gov/waterboards_map.shtml

The San Diego IRWM Region lies within the San Diego Regional Water Quality Control Board (Region 9).

Q7. ELIGIBILITY

Does the application represent a single application from an IRWM Planning region approved in the RAP (see section II, Table 1 of the Planning PSP)?

Yes

If yes, include the name of the IRWM Planning region. If no, explain.

The San Diego IRWM Region was approved during the 2009 RAP.

Q8. ELIGIBILITY

Is the applicant a local agency or non-profit organization as described in Appendix B of the Guidelines?

Yes

If no, please explain.

As described in Attachment 2, the San Diego County Water Authority is a local agency as described in Appendix B of the Guidelines.

Q9. ELIGIBILITY

List the urban water suppliers that will receive funding from the proposed grant. Those listed must submit self certification of compliance with California Water Code (CWC) §525 et seq. and Assembly Bill (AB) 1420 (see Attachment 6 of the Planning Grant PSP). If there are no urban water suppliers, so indicate.

The San Diego County Water Authority will receive funding from the proposed Planning Grant. Attachment 6 addresses the self certification forms for

California Water Code ??525 and AB 1420 compliance. One original hard copy of each form was submitted in a separate envelope.

Q10. ELIGIBILITY

Have all of the urban water suppliers, listed in Q9 above, submitted complete 2005 Urban Water Management Plans (UWMP) to DWR? Have those plans been verified as complete by DWR? If not, explain. Will all of the urban water suppliers listed in Q9, along with any additional urban water suppliers that meet the urban water supplier definition threshold for the first time, submit updated 2010 UWMPs, consistent with the 2010 UWMP Guidebook and verified as complete by DWR, before the execution of a grant agreement? If not, explain.

The San Diego County Water Authority has submitted to and received verification of a complete 2005 UWMP by DWR. The San Diego County Water Authority will submit an updated 2010 UWMP consistent with the 2010 Guidebook by the July 1, 2011 extension established for wholesalers.

Q11. ADOPTION DATE

Identify the adoption date or anticipated adoption date of the IRWM Plan.

10/25/2007

Q12. COMPLETENESS CHECK

Have all of the fields in the application been completed?

Yes

If no, please explain.
